NOTE

The "Carrier Profile" includes a history of convictions, administrative penalties, inspections, and collisions provided to Alberta Transportation by law enforcement and other government agencies. Other information such as inspection facility certifications, audits, and notices documenting violations may also be included. The Carrier Profile is used to identify carriers that pose an unacceptable risk to the public. Information contained in the Carrier Profile will be considered when establishing a carriers safety fitness rating.

Carriers are encouraged to obtain and review their Carrier Profile regularly to help evaluate the effectiveness of their safety and maintenance programs, and take proactive action to rectify safety and compliance issues.

The actual description and coding of events are worded using criteria set by the Canadian Council of Motor Transport Administrators(CCMTA) and therefore may not be the same wording that appears on law enforcement documentation.

The carrier current compliance standing can be found in "Part 1 - Carrier Information". This will always reflect events that have occurred in the previous 12 months from the printed date regardless of the Profile Period Start and End Date.

All reasonable efforts have been taken to ensure the accuracy of the information in this report. If any information shown in the carrier profile is in question, the carrier should consult their records to verifiy any concerns. If there are data inaccuracies or inconsistencies, contact Alberta Transportation at (403) 755-6111 or by email to compliance.info@gov.ab.ca.

An Education Manual is available to assist carriers to better understand the transportation requirements to suport compliance to transportation safety legislation. The Education Manual and other information regarding Alberta's National Safety Code (NSC) program can be viewed on the internet at https://www.alberta.ca/education-manual-for-commercial-carriers.aspx
